

Attention Pivot Families and Staff,

With Spring Break around the corner, Pivot has at-home tests available for any student or staff member who would like one. It is highly recommended to test prior to returning to the school site as many will be traveling, visiting family, or engaging in social activities. All Pivot students and staff are encouraged to pick up a free Covid-19 antigen test and use it as a screening measure 1-2 days prior to your return to school. If you test NEGATIVE, you may return to site. If you test POSITIVE, please stay at home and notify your EC or the Covid Coordinator directly at rangeles@pivotcharter.org.

Thank you all. Stay safe and enjoy your Spring Break!
